

ANTI-MICROBIAL SHIELD

Spray once and safeguard your space from infection spread for **three months**. ACCEND provides an environmentally friendly anti-microbial shield that is applied to clean and disinfected areas. This solution extends the cleanliness and safety of your space for up to 90 days by killing harmful germs, particles and bacteria as they land on surfaces, including the virus strain causing COVID-19.

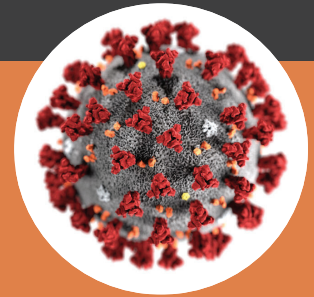

“Use this protective shield after disinfecting your space to prevent infection spread and keep your space virus-free for 90 days.”

BENIFITS INCLUDE:

- Reduced need for disinfection services
- Large cost saving over time
- Odorless and quick drying
- Effective against viruses for 90 days

“This solution demonstrates an immediate kill rate of 99% and residual kill rate of 99.8% of the virus strain causing COVID-19.”

THE SOLUTION IS:

LAB TESTED & APPROVED

With 16 years of research and hundreds of tests performed, this product is one of the safest and most researched chemicals in the world.

100% GREEN & EPA APPROVED

Feel safe knowing that this product is odorless, non-toxic, non-flammable, non-allergic, safe for kids, pets and food surface contact.

EFFICIENT & COST EFFECTIVE

With 90 days of protection, we can save you time and money by fogging your space less frequently with a heightened ability to prevent the spread of harmful viruses and bacteria.
